

# BETA THETA PI

BILL HUCKINS, President

Beta Theta Pi was founded by John Reily Knox at Miami University, Oxford, Ohio, in 1839. Gamma Phi chapter was established on the OU campus in 1907.

The Beta mate-call has lately been echoing through the hills of Asp and Lynn with Weaver Johnson, Dale Cook, C. J. Pierce, Ben Bell, Ralph Tolson, Ross and "Bucket" Coe and Bill and Bob Jones all joining in a lively houseful for the landlady and her daughter.

Bill Jones, of the Beta Joneses, has taken the initial step by "steadying" with KKG's Nancy Bean. Guy Berry and his long time pinmate, Barbara Bass, are taking the final steps toward a June marriage. The merry struggle of C. J. Pierce and Kathryn Miller first semester may lead to better things in the very near future. Twosomes seen most everywhere were Carolyn Lytle and Weaver Johnson, and Patsy Burns and Nat Smith—there was even a threesome consisting of Benny Bell, Mollie Lester and "Bear" Tolson—very confusing. Bucket Coe spent his time (when he wasn't studying—of course) with the Pi Phis this year—first it was Ann Marland, then Nancy Wilson, and there was always the girl back home. Pledges Jerry McWilliams and Lon Jackson

seemed to get along fine with the Pifi chapter, too. The new Stratosphere Room in OC was royally opened by the Betas in the form of one "party to end all parties". The evening started with a buffet supper for the forty Betas and dates; after that you were on your own.
